WORK EXPERIENCE

Software Developer

January 2022 - Present

Hepsiburada, Istanbul

- I have experience working as part of a team responsible for managing customer data, implementing login and registration functionality, customer tagging, and OTP services. Additionally, my team contributed in developing some features in product detail page. I also gained significant experience in monitoring and managing high-traffic services, including developing effective strategies for load balancing, fault tolerance, and other key aspects of maintaining robust and reliable systems.
- **C#, Go, Kubernetes, ELK Stack, New Relic, Grafana, MSSQL Server, PostgreSQL, MongoDB, BigQuery, RabbitMQ, Kafka, Jira, Slack, Gitlab, Postman**

Software Developer

September 2020 - December 2021

Logosoft Bilgi Teknolojileri, Istanbul

- I took part in the development of a middleware that enables the integration of all e-documents between SAP B1 and e-document integrators. This software provides bidirectional data flow between the ERP software and the e-document integrator. In addition, I worked in the development of a few programs and SAP B1 Add-Ons that support the integration process.
- **C#, MSSQL Server, SAP HANA, Azure DevOps, Postman, SoapUI**

Part-Time Software Developer

September 2018 - May 2020

Yalova University Information Technologies Department, Yalova

- In the first year of my job, I worked as a full-stack developer in the Content Management System Project at Yalova University IT Department. In my second year at work, I worked on a reusable software infrastructure to build websites that will be used for various purposes of the University <http://www.yalova.edu.tr/>
- **C#, JQuery, MSSQL Server, Trello**

EDUCATION

Bachelor's degree in Computer Engineering

2016 - 2020

Faculty of Engineering, Yalova University – 3.48 / 4.0

- Thesis : Obstacle Avoidance Algorithms in Autonomous Vehicles
